

Where is Negros?

Contributed by Pedro

Let's start by locating where Negros Island is... click [Negros Location Map](#) from Google. In Philippines, what comes to mind when Filipinos talk of Negros Island and its people are... Haciendas, Sugarcane, Copra, Fresh Sea Foods, Fiestas, Great Outdoors, Marine Parks, and endless tales of Cockfightings and professional Fighting Cock breeders.

In the succeeding posts, we will talk about the highlights of Negros which any Negrosanon (like me) is always proud of. :)
